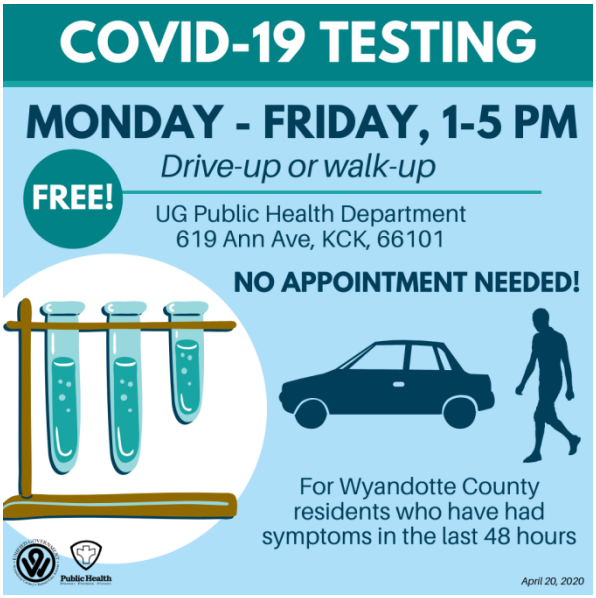
St. Luke's Hospital – Mission Farms

St. Luke's Mission Farms is completing drive-thru testing on the West side of the clinic. Drive-thru testing requires a physician order and a photo ID ; STAY IN THE CAR. Must have a Dr order and photo ID. Stay in car.

St. Luke's Multispecialty Clinic – Missions Farms
4061 Indian Creek Pkwy
Overland Park, KS 66207

Phone: 913-323-4600

Wyandotte County Health Dept



The [Wyandotte County Health Department] is providing drive up COVID-19 testing, no appointment needed! If the patient prefers to have an appointment, they can choose to be referred by their physician for drive up testing; however, this is NOT required.

Staff will ask patients for some basic info, like name, date of birth, and contact info so they can follow up with test results. There are additional questions that are optional (e.g. race, ethnicity) that they will ask only for the purposes of better understanding how COVID-19 is spreading in our community.

A patient can ALSO confidentially report symptoms on their website, http://www.wycokck.org/COVID-19, or by calling 3-1-1 (913-573-5311), and someone from the Health Department will follow up with next steps and testing *(not sure how this stays confidential if you request follow up from the health dept, but that is what their website states)*.

Sharon Lee Family Health Care (FHC)

FAMILY HEALTH CARE

Sharon Lee Family Health Care (FHC) is providing swab testing for COVID-19.

COVID-19 tests are offered at no charge to the patient, if uninsured, and are provided through a drive-thru method.

Patients MUST go through the Family Health Care / JayDoc COVID-19 Hotline (913-396-7070 from 8AM until 8PM daily) in order to receive a prescription / authorization for COVID-19 testing.

Patients must meet the screening/triage criteria based on the CDC and the Kansas Department of Health & Environment (KDHE) to receive COVID-19 testing.

This is a labor of love from the staff at Family Health Care. Any donations will be used for additional equipment, test supplies and other direct costs. Visit their website to help with donations: http://www.SLeeFHC.org.

Family Health Care and JayDoc volunteers are staffing a phone line for questions regarding COVID-19. Call 913-396-7070 from 8AM until 8PM daily for providers and for the public.

What you need to know:

If you have symptoms of COVID-19, we encourage you to call us at 816-923-5800. You will speak with a provider who can assess your situation and schedule you for a test.

If you are a Swope Health patient, we can schedule you at the Central drive-through clinic near Building C or at the Wyandotte COVID-19 office. Both are separated, as a precaution, from other areas of the clinics that are open for non-COVID-19 healthcare.

If you are not a Swope Health patient, you must complete registration before we can schedule an appointment. This must occur in person at this time, so we will ask you to come to either the Central or Wyandotte COVID-19 clinic to register. Please bring an ID, proof of address, health and health insurance records with you. While there is no charge for COVID-19 testing, you may be eligible for sliding fee payments for other healthcare services, so please bring proof of income as well.

You can learn more about registration and download forms in advance, if you like. Forms are available in English and Spanish.
